 **Important**

Dynamics 365 Talent: Attract and Onboard apps are being retired. Learn more at [Retiring Dynamics 365 Talent: Attract and Onboard apps](#).

Talent includes Attract, which can help you identify, interview, and hire candidates that hold the skills your organization needs. As you move from recruiting through hiring, the Onboard app can help you bring your new employee into your organization by setting accurate expectations, providing information they need to get started, connecting them with colleagues, and set them up for success in their new role.

 **Important**

The functionality in Dynamics 365 Talent: Core HR is now part of Dynamics 365 Human Resources. You can view the documentation for Human Resources at [Welcome to Dynamics 365 Human Resources](#).
