# AGENDA

- INTRODUCTION À GITHUB
- GESTION DU CYCLE DE VIE D'UNE SOLUTION
- IMPLÉMENTATION DANS GITHUB

# INTRODUCTION À GITHUB

# INTRODUCTION À GITHUB

Power Platform  
French Summit

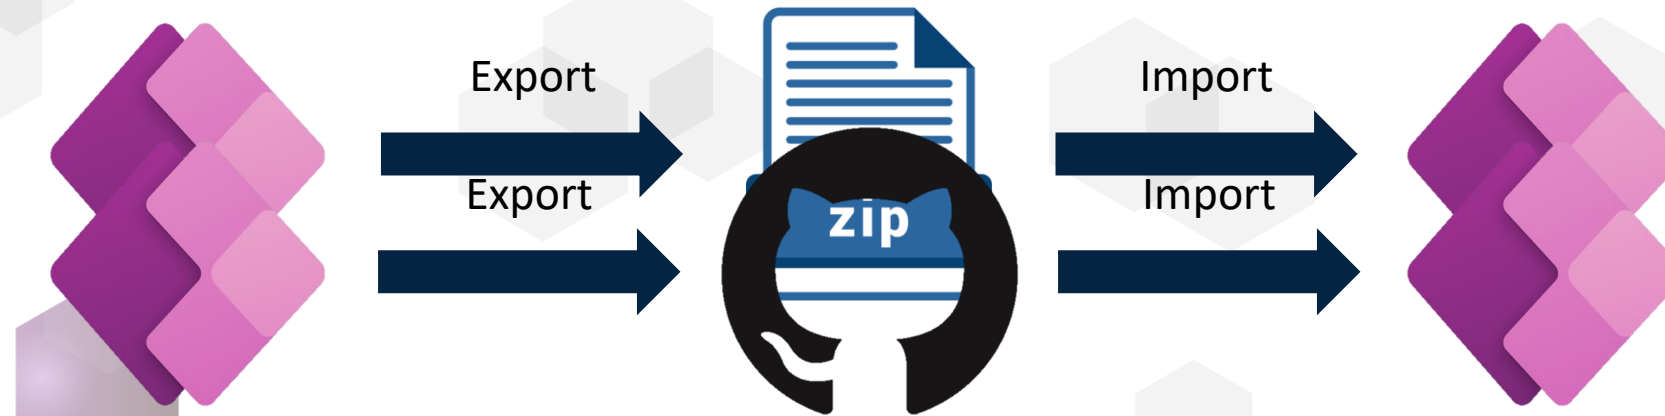

# GESTION DU CYCLE DE VIE D'UNE SOLUTION

# AUTOMATISATION DU PROCESSUS DE DÉPLOIEMENT

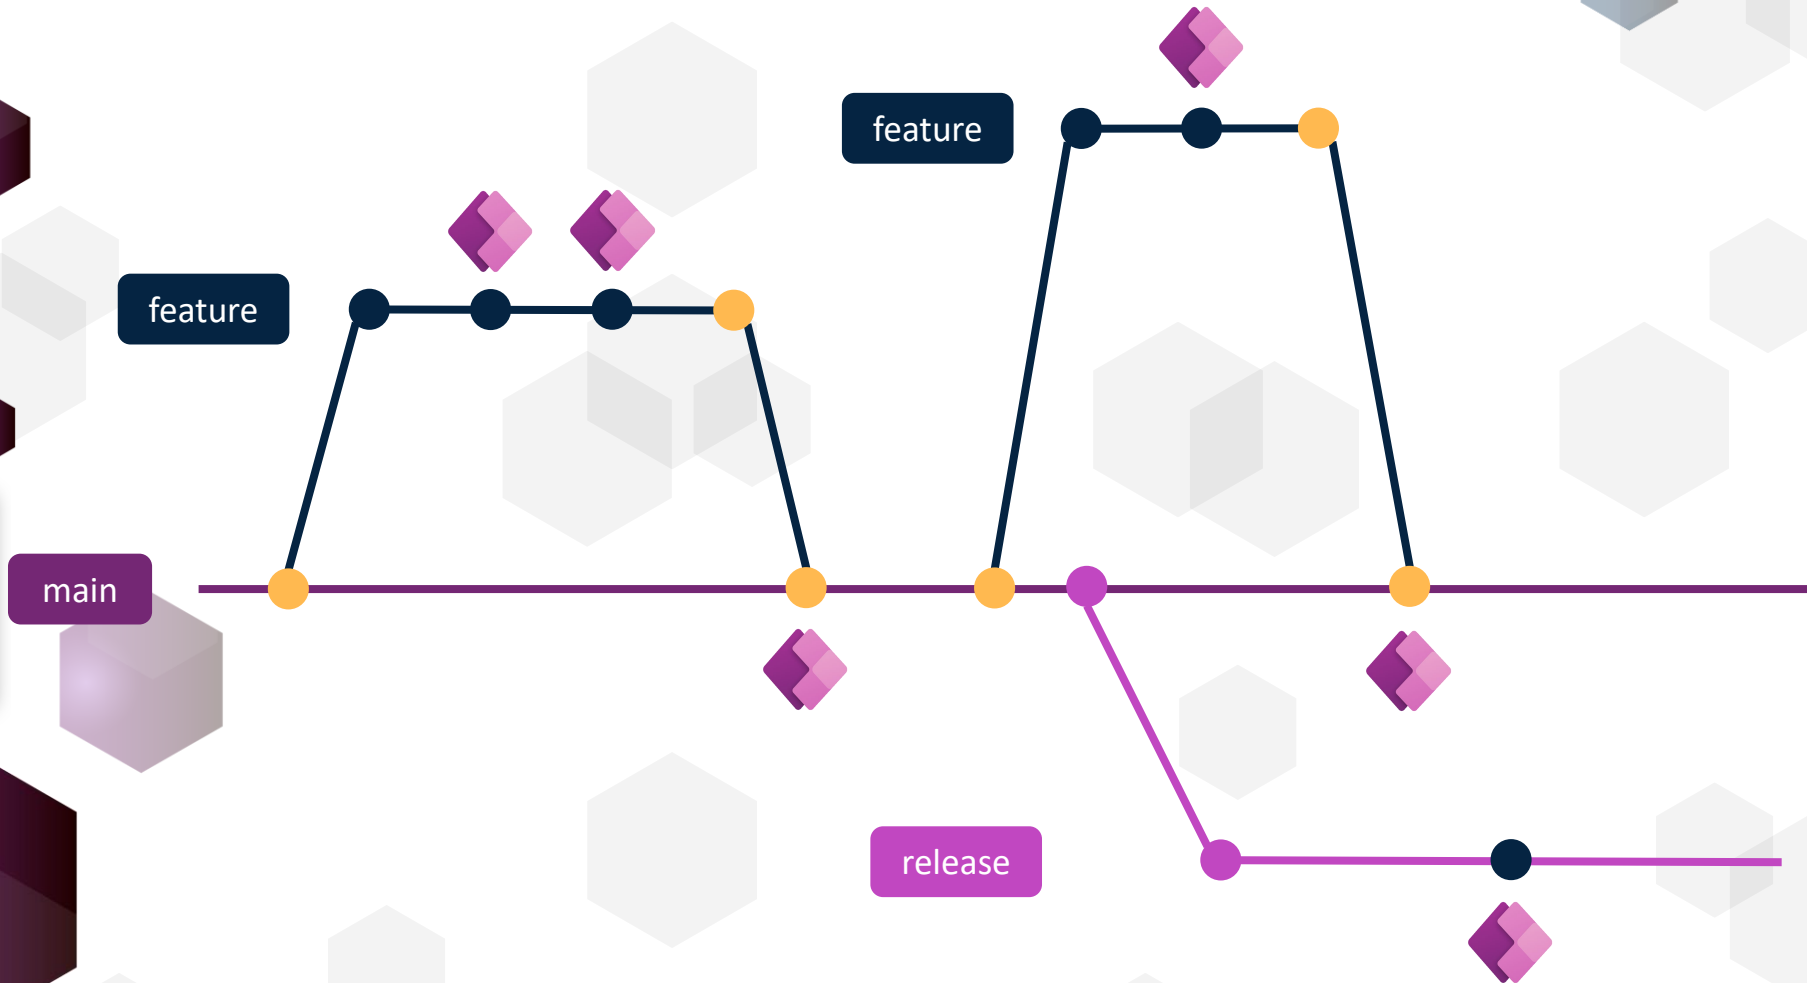

Power Platform  
French Summit

1. Historisation fine des évolutions
2. Automatisation des tâches liées au déploiement de la solution  
(ex: Solution checker, tests unitaires, verifications de sécurité, anlayse de code...)
3. Amélioration de l'organisation du développement / de la configuration  
avec l'utilisation de branches et de pull requests

# UNE STRATÉGIE DE GESTION DE BRANCHES POSSIBLE

# PROJET À SUIVRE DE PRÈS

# CoE Starter Kit (PIPELINES)

Power Platform  
French Summit

The screenshot displays the GitHub repository page for `microsoft/coe-starter-kit`. The repository is currently on the `devkeydet` branch, which is 1 commit ahead and 16 commits behind the `main` branch. The commit history shows a series of updates to the repository structure and content, including the addition of `src/Pipelines`, `.gitignore`, `CODE_OF_CONDUCT.md`, `LICENSE`, `README.md`, and `SECURITY.md`.

The `README.md` file is visible, showing the `Contributing` section. It states that the project welcomes contributions and suggestions, and that most contributions require the user to agree to a Contributor License Agreement (CLA). The project has adopted the Microsoft Open Source Code of Conduct.

The repository also includes a `src/Pipelines` directory, which contains the pipeline definitions. The repository is currently on the `devkeydet` branch, which is 1 commit ahead and 16 commits behind the `main` branch.
